User interface features: The user interface is based on Microsoft Windows. It uses a two pane layout of the main application window, with the toolbars on the left side and the tool box on the right. Placing applications in the taskbar:

In the Windows 95 and Windows NT 4.0 and 4.5 series, as well as in Windows ME, all AutoCAD applications can be placed in the taskbar, which makes it possible to access the AutoCAD application easily with only a single click. Starting with the Windows 2000 series, the user interface has changed and AutoCAD is placed in its own tab in the start menu, and applications are not placed in the taskbar. In AutoCAD's 2013 and later versions, the user interface has changed again and AutoCAD is placed in its own tab in the start menu. In addition, applications are placed in the taskbar. Autodesk Exchange Apps: All AutoCAD users are encouraged to try out the range of AutoCAD-based application available in the Autodesk Exchange Apps portal. In addition, Autodesk Exchange Apps is the place where users can submit

application ideas for the Autodesk Exchange Gallery. LISP: AutoCAD's LISP programming language is used for creating AutoCAD extensions, AutoCAD macros and customizations. AutoCAD's LISP programming language is supported by many third-party LISP developers and by AutoCAD 2010 and later. AutoCAD Category:Vector graphics editors

EUGENE — A former Oregon State student accused of gang raping and murdering two women in the Willamette Valley has told authorities he felt he was “in a fair fight.” In a recorded jailhouse phone call obtained by the Register-Guard, James Lee DiMaggio told a deputy sheriff from the Shasta County jail, “I’m not going to lie to you. I knew when I got there that it was going to end up bad, but I felt like it was a fair fight,” according to the sheriff’s office. DiMaggio was released from a pre-trial

jail stint last month. Related: Biggio:
