I want to use configuration file to set commands which will connect to the game

---

automatically. When the client connect to the game,it will run this configuration and start after getting tick from server. My client is on remote pc and the server is on local pc. Where can I find configuration file for cs? I want to find that configuration file and I want to add this server to it.

A: Ya know. There is no config file for it. The connection is automatic. When the client connects with a valid IP,it will have the tick and it will run the "servercfg.cfg" automatically. I guess you can find that file on the client pc. Where it has the cs.

Dynamic remapping of arm versus hand representation in human primary motor cortex. Motor representations in the primary motor cortex (M1) change during hand vs. arm movements. However, the extent to which the representation of the amputated hand (H) vs. the intact hand (I) is altered by the amputation remains unclear. This question was addressed by quantifying the extent to which functional activity in M1 exhibits a spatial correlation between I and H representations during movements of the paretic arm (aP) and non-paretic arm (naP). Healthy controls (HC) and chronic patients (CP) with unilateral hand amputation were scanned using MRI during use of the intact (I) and non-paretic arm (
