With the use of the newly added magic system, discovered by Shinobu Sakura, they finally will be able to access the Level Beyond the Gate the place where the real power behind the events resides. But with the combined forces of Zora and the Black Demon Clan, which has bifurcated into two factions, the town will be attacked by both sides. Shinobu, who has had

---

her dream of becoming a wizard shattered, finds herself at the centre of the conflict. Serin, who used to be a Black Demon Clan leader, decides to take revenge for her defection, and assemble the allies that oppose the Black Demon Clan. In an effort to achieve their goals, they will have to fight all of the demons from the “Serin Fate” series and from the “The Level Beyond the Gate”. Of course, the demonic invaders will not be easy to defeat! (Please Note: Serin Fate has not been released yet.)

Info: C.E.R. (Character Expansion Reversal)

[C.E.R. is the revolutionary idea where character stat growth is tied to the compilation of the C.E.R.s obtained from certain actions. The more C.E.R.s you collect, the higher your character will grow in strength. This means that you will be able to easily use the skills you make use of on the level beyond the gate of

---

“Serin Fate”, as well as the equivalent gear from the black demon clan. C.E.R. is designed to allow the players to use both weapons from the original Serin Fate and the new “The Level Beyond the Gate” well and allows the character to grow at the same pace as you fight the enemies. The higher your strength grows, the harder your enemy will become and the more powerful the skills you will use will be! There are many skills, weapons and materials that have been polished and made stronger through the developments of “C.E.R.” to allow you to manipulate the challenges of the game to your advantage.] -The main weapons from the original series are also unchanged. -The four new types of weapons include a combination of elements that represent the elemental elements (Air, Fire, Earth, and Water) that allow you to perform special actions.

**awesomely fun and never boring. Well this version is even better! My Youtube Channel: My Facebook: Please remember to give your feedback, especially if you have problems Hey, Robot Island fans! Let's meet! I'm a passionate indie game creator with a passion for making games. I've been playing and making games for about the last 10 years. I've been working on my own games for more than 5 of those 10 years. Before that I was an independent film maker and really enjoyed making movies. One day I was searching for the meaning of life on the Internet and found the perfect subject matter, robots! After a while, I realized that the perfect combination for me was to combine my two main passions: video games and film making. I've created a**
