The new features are part of the comprehensive FIFA Evolution update coming in July. The addition of the larger new pitch, ball physics improvements and ability for players to be level-headed after a goal will be part of this update. A new Defensive All Situations Dynamic Difficulty option will allow the player to set their preferred Defensive Difficulty while on the field. The Static Difficulty will continue to default to the previous settings, which are set upon match start. Changing the settings during a match should have no impact on the player's performance. Previously, players could scale their Offensive and Defensive Difficulty settings to create more difficult challenges. The Defensive All Situations Dynamic Difficulty feature will replace the Offensive Dynamic Difficulty feature. Additionally, player kits will now be displayed in the "Rival" camera when a free kick or throw-in is taken from anywhere on the pitch. Changing the camera angle will now display the kit of the team that currently has possession of the ball. Moreover, the player will now be prompted to put their hands on their face when viewing a penalty kick from the "Goalkeeper's" camera angle. The player must complete the gesture in order for the shot to be taken. Failure to do so will result in the shot being saved by the Goalkeeper. This mechanic replaces the "Takes Shots" and "Head Shots" actions available in FIFA 11. 11 new street kits plus one new and improved college kit. New goalkeeper kit is based on experimental homages to the new "Real Madrid Home" and "Barcelona Away" kits. FIFA 21's Real Madrid kits will now be available on PS4 and Xbox One. Players who have already purchased these kits will receive the free PS4/Xbox One upgrade. New high-quality FIFA 21 Xis, composed of new jerseys, shorts and boots have been added to the FIFA 21 Ultimate Team. This collection of player faces may also be customized with the new Pro Player 2.0 skin. The updated FIFA Ultimate Team game mode was introduced in FIFA 21. Now, players can purchase player packs with a discount for high-end players to unlock additional items, and earn special in-game rewards. Items in the packs can be purchased individually for extra "boosts" to a particular rating, or they can be upgraded to unlock "Chests" which contain items to improve performance in areas like acceleration,

On the road in 2017, I happened upon a peanut butter and jelly sandwich made from Reese's Pieces. I'm aware of the bizarre nature of the sandwich; the peanut butter and jelly comes from a combination of peanuts and jelly, with Reese's Pieces filling the role of peanut butter. In fact, there is no actual peanut butter in the sandwich. And yet, the sandwich was delicious. This is the ultimate road food; I might not be able to replicate the experience of a road trip, but I can experience the joy of one of many other sandwiches that share the same strange lineage. Heck, the lineage of some of these sandwiches are pretty close to the original. I had no idea there was a history to these sandwiches, and I think that's a shame. A list of many of the strange, and delicious, peanut butter and jelly road food sandwiches available in the continental US and Canada. Please note that some links to sandwiches are marked with an asterisk (*). This is because the sandwiches have been rebranded and there is no actual peanut butter in the sandwich. I had no idea there was a history to these sandwiches, and I think that's a shame. 1. What's new:

- **Possession-heavy attacking gameplay** - Control the ball more when you attack, and run towards it more often when you need to.
