Bummer! Looks like you've missed the cut. Oh no! It looks like you've missed the the latest edition of #nerddown. :(Wish you were here to see your emojis in color. Comment below to apply for the next round. Next Edition April 27 @ 2:00PM EDT www.twitch.tv/iammorghuys If you've previously applied in the past, you can apply here. Nerdy links: Here's a slideshow of last year's entries! It's been a while since a beta version of Streamlabs has been released. This is a big milestone for Streamlabs and Streamlabs OBS, and I'm really happy to share. Streamlabs OBS is a major upgrade to our live production capabilities. In the very near future, Streamlabs will begin beta testing the OBS project in a closed group on the Streamlabs Test Center. Streamlabs OBS is really powerful, and I've tried it myself to find out what makes it tick! If you're interested in beta testing, make sure you sign up for the Test Center. Here's what's new in Streamlabs OBS: We're rolling out Streamlabs OBS as a monthly subscription. Our monthly subscription

Q: Angular2 array of items not working I'm trying to create an angular2 component and somehow it's not working for me.

```
items.ts export class Items { id: number; name: string; }
items.service.ts import { Injectable } from '@angular/core'; import
  {Http} from '@angular/http'; import { Items } from './items';
  import { Observable } from 'rxjs/Observable'; import
'rxjs/add/observable/array'; import 'rxjs/add/operator/map'; import
  'rxjs/add/operator/mergeMap'; import
```
