Click on download button to download the full setup file "I reject that. On the contrary I assume Mr. Chalabi was right. That the threat that they thought they had to change Iraq into a Western-style democracy, that has proved to be -- and don't sugarcoat it -- a work of failure. There were all these western experts who came in with a plan and the idea was that they would somehow find a formula... "Now, they might claim with all their intellectual clarity that they had the formula. But the reality is that there was no formula. They came in with the idea that they would substitute one guy for another. They came in and they said, let's just just, you know, get rid of that guy or get rid of this guy and then it would all be fine. The reality was that the Iraqi people would not accept it. "And it didn't work because they would not accept it. And that is what we have learned. Now they think they will be able to try it again. And we may well be able to defeat it this time by concentrated here in Iraq, on the level of region and that is very important. "Secondly, there is another level of cooperation needs to be supported in a manner that explains to the people in Iraq, and, I think, exposing, what is the true nature of the threat that the United States is saying, don't accept something? There is an Islamic, historic danger. There is a chance that, for the first time, we may have an Islamic state. And the people of the region, and they are very passionate, and are very dangerous, as we have seen. But if the United States is saying, don't accept
