# DeepSpar Disk Imager

## ~UPD~

DeepSpar Disk Imager Review gizmodo. DeepSpar Disk Imager Review I'll be happy to hear other alternatives or solutions if they are superior, though please do tell if they are better in any way as I've been very happy with DeepSpar Disk Imager over the years and like to keep it as stable as possible. A: Having owned DeepSpar Disk Imager 4 and have now moved on to DeepSpar Disk Imager for Windows, I can say that it is very stable and worth it to upgrade. The only concern I would have is if it worked with SSD's, which it does not, as it does not seem to be able to write and delete the zeros of the SSD. Q: Tailing a program using proc I'm having trouble getting a tail -f on a process, it's mostly working but it always returns 0 lines. I need it to return whatever the program is outputting. I tried using top and strace but it also returns nothing. Here's the code for the function.

```
int proc_open(char const *progrname, char const *filename, char const *mode) { char const *argv[] = {progrname, filename, NULL}; return open(progrname, O_RDONLY, mode); } Using it like this: pid_t parent_pid = fork(); if (parent_pid 0) { continue; } #define PROCESS_NAME "HtmlHelper.exe" int return_val = proc_open(PROCESS_NAME, "", "rt"); if (return_val == -1) { perror("Unable to run the " PROCESS_NAME " process"); } printf(" If we execute this line, it should return an error: %d ", return_val); if (return_val ==
```
