For the past five years, Weirdpoint Studios has been transforming the PC into a first person survival experience for all ages. Since the company's premiere of Hollow Knight, they have created three amazing games: Octodad: Dadliest Catch, The Quest of Dood and The Witness. The company is currently working on Dystopia Nightmare 2, a survival horror game focusing on hardcore action, puzzle solving and exploration. Octodad is a hybrid of platformer and reverse tower defense. It tells a story through split-screen gameplay in which Dad (a hip, clumsy ottoman made of synthetic furniture) suffers from a terrible secret that only he can see and only he can fix: his inner companion and helper robot, Octodad. Dad's faithful friend, Octodad, exhibits human qualities such as expressions and behavior, and their bond helps fill a void left by the loss of his human family. The gameplay, as you'd expect, takes place in Octodad's alternate dimension. He tries to fix daily routine mishaps, as well as strange events such as strange sights, loopy code, and more. These mix with the usual platforming, exploring, and puzzle-solving to create a rare blend of mechanics - one that blends the tower defense aspects of the genre with the platforming and obstacle avoidance (without the running needed for a typical tower defense) and what's required in a first-person survival game. Key Features: - A unique story-driven, puzzle solving experience. - Breathtaking visuals and a unique art style. - Varied gameplay mechanics. - A powerful voice-over script and immersive music bring the game to life. About Strange Thing Studios: Strange Thing Studios is a new studio formed from the ashes of Weirdpoint Studios and is composed of some of the same minds behind Hollow Knight, Octodad: Dadliest Catch, The Quest of Dood, and The Witness. Strange Thing is focused on a new team-oriented and coordinated group of people creating interesting and innovative games that blend fresh experiences with close ties to classics. The studio is currently developing Dystopia Nightmare 2, a survival horror game focused on

hardcore action, puzzle solving, exploration, and horror. Steam Video This content is only available in an online streaming format. More information about streaming videos can be found in the Streaming Videos on Steam FAQ. About The Game Hollow Knight: Hollow Knight is a story-driven action adventure where each choice matters, and

Tomato Jones 2 Features Key:

40 maps (28 rural maps, most of them modelled on the classic European countries, 6 UK maps and 6 JPS maps)
12 point of interest classes with different sizes, heights and OBJ models)
49 mill for the reeds
63 mill for the coal
230 buildings with a variety of properties
150 vehicles of countless type and size
17 different opponents with their respective AI
Asian-Tunisian courier route for the future and has a fleet of colorful shipping trucks
Two ways of passing the large waterways: with rounded objects (that heavily decrease navigation) or with cylindrical structures
Miniatures table with rolling hills
Two sky shaders - grey and the beautiful Baudin's blue
And everything is quite simply!

The game that is convenient because you do not need to play a full time: you can take your time, relax and enjoy a trip on the time of your convenience. The gameplay is as easy as you'd like, because your navigation is very easy, you will reach your final destination even in 20-30 minutes of gameplay!

In this way, you can do other things:

- Download your favorite maps in the vector format at
- Another new feature - designing your own tileset, if you have any ideas you can share them with us!

In conclusion of the game review: Like most of the other Simutrans players, this one is a bit different because he has a large and in-depth map (split into the classic countries) and the tiny-prettiness term so I have to mention it again and again
