5/5 ★★★★★ (Much Recommended) REVIEWS ELDRED game: 4.5/5 ★★★★★ (Recommended) ELDRED's Latest Community News: Check out our Discord! Eldred Discord server. Community You know, I'm actually happy to see a thread about this today. It's been years since I played this, and I'd forgotten about it and wanted to revisit it. I think it's a fantastic game, though I did not like the art style at all back then. It's evolved quite a bit since then and it shows. The game has two components to it: the story that basically continues on from the events of Dragon Quest IV, and the comic book. The primary focus of the game is the story, but there are fun minigames, item collection, etc. In addition to the story there are a variety of random events that happen to the player, characters, and enemies. The story arcs are very well done, although they are not all equally compelling, due to the fact that the game is very old, and the pacing is a bit slow in general. Combat and Battle System - I really enjoyed playing it. It's quite simple, yet there's enough strategy and depth to it. You start with a very basic and basic set of skills. As you level up you gain skill points that can be put towards skills that you can add to your party at the time. There are about 5 different types of skills, ranging from HP, elemental, to magic, and so on. Every time your hit points run out, your party takes damage. It is a looping battle system, and if you lose all your HP it is a Game Over. If you hit someone, they take damage, which in turn takes away from your HP, which then causes more damage until either one side or the other is KO'ed. Combat encounters are kind of standard RPG fare. You usually have an open field for a battle, at least in single-player mode. In the middle of the battle field are enemies, to the left and right are various items, and every 5x5 grid is a square of terrain that can be passed through. For example, if you're facing a big slime creature, then you'll encounter a slime trail, as

well as a slime square. You can run through the slime trail (to the left of the battle field), and run into bff6bb2d33
