Root With Restore By Bin4ry V30 Downloadl

It exploits the remount time issue in Android's "adb restore" service. ==
Script by Bin4ry (converted to .bat)
Run the script, type in any name like BAT and press Enter. Then press the "Y" key to allow it to execute the "killall Adb" command and exit the program. You will see the message "Booting Android", then "All done", and "Install Adb Restore". You can then uninstall the app from the settings menu.
