Commanding many scouting detachments, Kehl was almost always found in the protection of his troops on the other side of the forest from the advancing Russian Army. Name's Kehl. A regular on the site, creating mostly scouts, rangers and archers (i dont have time to make all the different rangers on the site) I can pm you all if you like, as I'm home for the day. I'll take on anything other than the scoundrels of the Russian Empire, female soldiers, or female soldiers with guns, swords, or knives (except Ashley). As for the other parts of the scoundrels, I have no problem with them! I can start off with a scout, do a few rangers, then an archer and (maybe) end up as a gatherer, (then we can do the sheriff). If you do a sheriff, we can do a sheriff with gun, sword, or knife. I'll be finishing off with a scout, ranger, and archer. The sheriff will be combined with a gatherer, ranger, and archer, if any of you can think of a better combination. Name's Kehl.
